EXPERIENCE

Design Esthetics: Full Stack Web Developer Intern 03/06/2024 – 27/06/2024

- Engineered high-impact features for a MERN stack web application, boosting user engagement by 30%
- Improved API efficiency, reducing response time by 25%, improving overall backend performance
- Developed a full-stack application for managing college club events and recruitments
- Enforced secure authentication and real-time event notification systems
- Designed a responsive landing page using React.js, achieving 40% faster load time

Markettopper Securities Pvt Ltd: Frontend Web Developer Intern 01/06/2025 – 30/06/2025

- Developed a stock comparison web application to visualize and compare Excel-based financial data using React.js and Recharts
- Engineered features to display multiple Excel sheets on synchronized charts with support for dynamic scaling and interactivity
- Implemented data normalization logic and logarithmic scaling to align visual accuracy across varying datasets
- Enabled simultaneous chart views and single-view modes for comprehensive comparison of stock trends

PROJECTS

ClubConnect: College Club Event Management System [GitHub Link](#)

- Developed a full-stack MERN application for managing college club events and recruitments
- Implemented secure user authentication and real-time event notifications
- Optimized database queries and API responses for efficient data management
- Technologies: React.js, Redux, Node.js, Express.js, MongoDB, Firebase

TaskMe: Collaborative Task Management Application [Website Link](#)

- Developed a MERN stack application enabling team-based task management through an intuitive group system
- Implemented a membership system with unique group codes and approval workflows for enforced privacy
- Created features for task assignment, priority setting, and real-time status updates (Pending/In Progress/Completed)
- Utilized Axios for efficient client-server integration

Coffee Haven: Animated Coffee Landing Page [Website Link](#)

- Designed a basic mobile-first coffee-themed landing page with engaging animations
- Implemented dynamic user interactions using GSAP
- Optimized page load speed and mobile responsiveness
- Technologies: React.js, TailwindCSS, GSAP

SKILLS

- Languages & Frontend:** JavaScript, C, C++, HTML, CSS, React.js, Redux, TailwindCSS, Bootstrap
- Backend & Databases:** Node.js, Express.js, REST APIs, MongoDB, Firebase
- Tools & Authentication:** Git, Postman, Chrome DevTools, JWT, OAuth, Bcrypt

EDUCATION

Manipal Institute of Technology || Manipal, Karnataka 09/2022 – 08/2026

B.Tech Computer Science Engineering

Relevant Coursework: Data Structures and Algorithms, Web development, Object Oriented Programming, Software Engineering, Software Development Models (SDLC)

LEADERSHIP

Technical Festival 2023 Organizing Committee Member

Managed databases for 400+ organizers, helped create the official rulebook, and coordinated venue allocations. Contributed to smooth event execution through better scheduling and data organization

Cultural Festival 2025 Core Committee Member

Oversaw a team of 25+ junior organizers. Acted as the link between departments and the student council, ensuring efficient coordination and structured event flow.
